Presents

RUGBY & GOLF IN JAPAN

JULY 2016

Japanese Rugby has entered a new phase in 2016 joining the Super Rugby Tournament and following their massive success at the recent World Cup, Rugby has never been bigger in this country.

Given they will also host the 2019 Rugby World Cup the sport will only but grow over the next few years. The NSW Waratahs will venture to Japan during season 2016 so join us to experience this first ever Super Rugby match between these two franchises as well as experience a little of Japan.

Additionally with the influx during winter of skiing in Sapporo, a wonderful infrastructure has been developed at NISEKO and now, during summer there are a dozen amazing Golf courses, as well priced and at this stage relatively unknown. Extend your Rugby visit with a couple of games on Golf in Niseko!!

We are offering three different experiences:

TOUR 1: Rugby Weekend in Tokyo
1st till 5th July

TOUR 2: Rugby Weekend in Tokyo plus sightseeing in Hakone (Mt. Fuji & Lake Ashi), Kyoto & Nar
1st till 9th July

End of All Travel Arrangements

Niseko is situated at the base of a dormant volcano – Mount Yotei, and next to one the most beautiful rivers in Japan – the Shiribetsu River and, as such, is well positioned to offer a variety of exciting summer and winter activities that can be enjoyed by visitors of all ages.

Located conveniently in the southwest corner of Hokkaido, Niseko is situated 50 kilometers south-west of Japan's fifth largest city, Sapporo and 80 kilometers west of Hokkaido's international airport, New Chitose Airport. There are also extensive bus and train links to the area.

Golf

The Niseko area boasts a large number of various types of golf courses. The season runs from late April until mid-October, and the summer is an especially popular time. There are courses for everyone from kids to grandparents, meaning there is golfing fun for the whole family!

Onsen

Fifteen local Onsen comprise the Niseko Onsenkyo, one of which is the famous, 100-year-old Kombu Onsen. Various types of Onsen facilities dot the area around Niseko, from fancy hotels to casual day spas and their baths contain minerals from strong sulfurs to clear, sodium-rich water that will leave your skin feeling soft to the touch.

These Onsen are all naturally occurring volcanic hot springs, and the minerals within them are believed to have a good effect on your body. Regardless, they make a satisfying and relaxing end to a long day of skiing, snowboarding, hiking, cycling, or wherever your travels may take you.

Dining

Niseko offers an inspired range of international dining options ranging from restaurants serving authentic Japanese fare that flaunts the locally grown produce to a myriad of other establishments serving fusion, ethnic and European cuisine.
